WORK EXPERIENCE

Arctic Wolf

Remote

Product Designer, Incident Response (IR) UX Service Owner

Jan 2024 - Present

- Drove IR Dashboard from concept to launch for 10K+ customers, contributing to **\$9M ARR** growth in 12 months by reducing booking time from **30 to <5 minutes**, saving IR specialists and CSMs **500+hr/yr** in operational overhead.
- Owned end-to-end redesign of IR Planner for 8K+ customers, consolidating fragmented workflows into a unified interface, increasing plan completion rate from **47% to 62%** and user satisfaction by **41%**.
- Led discovery across **3** product areas (IR, GTO and Triage) through **15+** workshops, synthesizing research findings into unified design patterns adopted across teams to prevent siloed feature development and reduce future technical debt.
- Used Claude Code prototypes to conduct usability testing with 5 IR analysts on a forensic timeline tagging feature, discovering a simpler solution that reduced development effort by **50%** and secured engineering greenlight.

Siteability

Toronto, ON

Product Designer

Nov 2023 - Dec 2024

- Launched site analysis product 0 to 1 by synthesizing **20+** stakeholder interviews into core UX and go-to-market strategy, acquiring 3 municipal clients and validating market demand with city planners and real estate developers.
- Designed and shipped property report generator for realtors and builders, acquiring **15** paying customers in **2** weeks and establishing a new revenue stream for the product.
- Developed white-label design system reducing rollout implementation time from **5 weeks to 2 weeks**, improving speed by **60%** to enable faster scaling across municipal partnerships.

Zighra

Toronto, ON

Product Designer

Sep 2021 - Jan 2022

- Increased user onboarding completion by **29%** on content creation platform by using Google Analytics to identify drop-off points, Hotjar heatmaps and session recordings to pinpoint where users got stuck.
- Designed and shipped social sharing feature for creator pages, increasing shares by **43%** and improving discoverability for emerging creators to reach new audiences.

AM-Tech Electrical

Ottawa, ON

Product Designer

Dec 2020 - May 2021

- Redesigned e-commerce storefront for B2B electrical subcontractors, reducing bounce rate from **88% to 69%**, a **44%** improvement, through product-focused repositioning.

RECOGNITION

Arctic Wolf, Incident360 Retainer | International Data Corporation (IDC) Market Note #US53353925

Arctic Wolf's Incident Response Retainer Plan: Why Didn't Anyone Think of This Before?: The note recognized the Incident360 Retainer, for which I served as UX Service Owner for Incident Response, driving the end-to-end user experience design (201% YoY growth, +13% margin improvement). Later adopted as a core sales asset by Arctic Wolf.

EDUCATION

University of Waterloo

Bachelor of Applied Science in Architectural Engineering, Building Systems Specialization
